CURRICULUM VITAE

My name is Mattia Marsetti and I was born in the Alps. After playing with the famous bricks for almost a decade I dedicated my teens in mastering Latin and Greek, while self-teaching informatics. Then I found my way into Engineering and, at the same time, I felt the need to explore what was not modeled by an equation with various volunteering experiences. I'm currently working on the Powertrain SW that runs inside the Ferrari GT and Motorsport cars.

WORK EXPERIENCES

▶ **MOTORSPORT SW SPECIALIST – Corse Clienti**   2020 - now
SW Development, Integration and Testing
Ferrari - Maranello
